

TARUN S

Bhadravathi, Karnataka – 577301

tarunstaruns94@gmail.com — +91 7483190724 — GitHub — LinkedIn

Profile

Information Science and Engineering student with a good understanding of basic Data Structures, Algorithms, and core computer science concepts. Familiar with C, Java, and Python, with hands-on exposure through academic projects, internships, and practical problem-solving activities. A cooperative team player who is eager to learn, adapt, and contribute effectively in a professional work environment.

Education

Jawaharlal Nehru New College of Engineering

B.E. – Information Science & Engineering

CGPA: 8.4 / 10

2022 – 2026

Shri Aurobindo PU College (PCMB)

12th Grade

84.3%

2020 – 2022

Papertown High School

10th Grade

96.8%

2017 – 2020

Experience

AI-ML Intern – Owl AI (Remote)

Oct 2025 – Nov 2025

- Studied AI/ML industry roles, required skills, and emerging technology trends.
- Compared Large Language Models such as ChatGPT, Gemini, and DeepSeek based on use cases and performance.
- Reproduced results from a published machine learning research paper using a public dataset.

Projects

Facial Landmark Detection for Motion Capture

- Developed a real-time facial landmark detection system using TensorFlow and MobileNetV2, predicting 108 facial keypoints from facial images and live video frames.
- Built a custom Blender plugin to stream detected landmarks for real-time facial motion capture and animation control.

Registry Editor MRU Cleaner (C)

- Developed a C-based Windows utility to clean MRU (Most Recently Used) registry entries.
- Enhanced user privacy by clearing recent activity data stored by Windows applications.

Technical Skills

Languages: C, Java, Python, SQL

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Libraries & Tools: TensorFlow, OpenCV, Pandas, NumPy

Platforms: Git, GitHub, VS Code, Jupyter Notebook, Google Colab

Databases: MySQL

Analytics: Power BI, Tableau

Technical Experience

- Active IEEE Member.
- 1st Prize – Bug Bounty Challenge, TechZone Nationals 2K25: Excelled in vulnerability analysis, debugging, and collaborative problem-solving.
- Event Coordinator – Techazone Nationals 2K25 (UI/UX Design Event): Managed event execution, participant coordination, and evaluation workflow.
- Main Coordinator – HACKYUGMA 1.0: Coordinated a state-level hackathon managing event flow, participants, and judging.
- Participant – IEEE Hackathon, Bengaluru: Collaborated in a 12-hour coding challenge demonstrating teamwork and problem-solving.
- Participant – MONAITHON 2K25 (National-Level Hackathon): Developed technical solutions under 36-hour time constraints.

Certifications

- Programming in Java – NPTEL
- Python for Data Science, AI and Development – Coursera
- Supervised Machine Learning – Coursera
- **Infosys Foundation – Finishing School for Employability (Java Software Developer)**
 - Completed intensive training in Java, OOP concepts, problem-solving, and employability skills.

Interests

- Chess
- Cricket
